TEJASWINI KUMMARI

Computer Science & Engineering | AI/ML & Full-Stack Developer | GATE 2026 Qualified

Email: tejaswinikummari17@gmail.com | Phone: +91 8919912916 | Location: Telangana, India
LinkedIn: linkedin.com/in/tejaswini-kummari-192425313/ | GitHub: github.com/Tejaswini2416

EDUCATION & ACADEMIC MILESTONES

B.Tech in Computer Science and Engineering (CSE) — 2023 - 2027
Vignana Bharathi Institute of Technology (VBIT), Ghatkesar, Telangana — CGPA: 8.77 / 10.0
- Core Coursework: Data Structures & Algorithms, Artificial Intelligence, Operating Systems, DBMS, Machine Learning

Intermediate (MPC - Mathematics, Physics, Chemistry) — 2021 - 2023
Vision Junior College, Boduppal, Telangana — CGPA: 9.8 / 10.0

Secondary School Certificate (SSC) — 2020 - 2021
Vijay Ratna High School, Boduppal, Telangana — CGPA: 10.0 / 10.0 (Perfect Sc

HONORS & COMPETITIVE QUALIFICATIONS

GATE 2026 Qualified - Data Science & Artificial Intelligence (DA) — All India Rank: AIR 10,000
- National Examination testing Linear Algebra, Calculus, Probability, ML Algorithms, AI, and Data Structures.
- Participant in IGNIS-XR-AI Hackathon (2025) & HMEL Energy Quest National Case Competition (2026).

TECHNICAL SKILLS & CORE COMPETENCIES

Languages: Java, Python, C, JavaScript (ES6+), SQL, HTML5, CSS3
Frameworks/Web: React.js, Node.js, Express.js, Flask, Streamlit, Tailwind CSS, REST APIs
AI/ML & Data: Data Analytics, NLP, NumPy, Pandas, Scikit-Learn, Anomaly Detection, Generative AI
Databases & Tools: SQLite, MS SQL Server, ServiceNow, Git & GitHub, Docker Basics, VS Code

KEY ENGINEERING PROJECTS

RazorPulse - High-Performance Transaction Monitoring Platform — React, Node.js, Express, REST APIs, Tailwind CSS
GitHub: github.com/Tejaswini2416/razorpulse_agent | Live: razorpulse.vercel.app
- Engineered real-time telemetry dashboard monitoring financial transaction streams with sub-120ms latency.
- Implemented intelligent alert filtering engine processing 2.1M+ transaction throughput with 99.6% reliability.

Smart Aadhaar Analytics Platform - Pipeline & Anomaly Detection — Python, Pandas, NumPy, SQL Server, Streamlit
GitHub: github.com/Tejaswini2416/Smart-Aadhaar-Analytics-Platform | Live: Streamlit Cloud
- Built automated data ingestion and cleaning pipeline in Python/Pandas detecting duplicate identity records (99.2% accuracy).
- Optimized SQL aggregation queries reducing database retrieval latency by 25%; deployed interactive Streamlit dashboard.

NLP-Powered AI Conversational Chatbot Microservice — Python, Flask, NLP, NLTK, Scikit-Learn, REST APIs
GitHub: github.com/Tejaswini2416/nlp-ai-chatbot
- Constructed NLP microservice with tokenization, multi-class intent classifier (93.8% accuracy), and sentiment analysis.
- Streamlined request pipelines to achieve <180ms response roundtrips for real-time customer query resolution.

CERTIFICATIONS & ENTERPRISE JOB SIMULATIONS

- **ServiceNow Certified System Administrator (CSA) - ServiceNow (2025)**
  Platform administration, business rules, workflows, incident management, ITSM best practices, user access control.
- **Data Structures & Algorithms using Python (Part 1 & 2) - Infosys Springboard (2024)**
- **GenAI Powered Data Analytics Specialization (2025)**
- Deloitte Australia - Technology Consulting Job Simulation (2024)
- JPMorgan Chase & Co. - Software Engineering Job Simulation (2024)
