TEJASWINI KUMMARI

Phone No.: +918919912916 | **Email ID:**tejaswinikummari17@gmail.com | LinkedIn | GitHub | **Location:** Telangana

TECHNICAL SKILLS

- **Frontend**: HTML, CSS, React.js
- **Backend**: Node.js, Python
- **Database**: SQLite
- **Others**: Java, C, DevOps, Data Science, AI/ML, UI/UX, OOP, NumPy, Microsoft SQL Server, ServiceNow, App Engine Studio, Flow Designer, Catalogue items

EDUCATION

- **Vignana Bharathi Institute of Technology, Hyderabad** **2023-2027**
  B. Tech in Computer Science Engineering (CSE) CGPA: 8.7

PROJECTS

Apex — AI Career Coach & Strategic Advisor link

Developed an AI-powered career accelerator using Next.js 14, TypeScript, and the Vercel AI SDK with dual-mode inference (OpenAI streaming API and offline simulation).

- Engineered real-time multimodal mock interview and document generation features using Web Speech and Media Devices APIs with dynamic STAR scoring and telemetry tracking.
- Architected client-side state persistence and localised PII sanitisation pipelines, optimising frontend state management and reducing stream latency.

NexusEvents: Student Event Discovery & Aggregation Platform Link

Built a high-performance event aggregation engine and discovery platform for college students using Next.js 16 (App Router), React 19, TypeScript 5, Tailwind CSS v4, and Supabase (PostgreSQL & Realtime).

- Engineered a real-time event lifecycle sync engine using Next.js 16, Supabase Realtime Channels, and background tickers to auto-update event statuses (UPCOMING, LIVE, CLOSED) and route 1-click external registrations across platforms like Devpost and Unstop.
- Built an analytics dashboard & QR gate scanner with dual-tone financial charts, ticket capacity donut graphs, live laser webcam scanning, and real-time duplicate entry fraud detection.

RazorPulse – Real-Time Payment Risk Engine & Post-Mortem Agent link

Built an autonomous fintech risk engine using FastAPI and Gemini AI to detect synthetic fraud bursts, isolate anomalies, and trigger real-time mitigation across high-velocity streams.

- Engineered a hybrid fraud-detection engine using FastAPI and Gemini AI, combining rule-based heuristics with multi-agent reasoning to deliver real-time risk scoring, root-cause analysis, and incident post-mortems.
- Built high-throughput REST APIs processing live transaction batches with sub-50ms latency, paired with an interactive Streamlit dashboard for real-time tracking of burst-traffic anomalies and risk vectors.

CERTIFICATIONS

- Data Structures and Algorithms using Python (Part 1 & 2) – Infosys Springboard
- ServiceNow Certified System Administrator (CSA)
- Deloitte Australia & JPMorgan Chase – Job Simulations (Forage)
- GenAI-Powered Data Analytics

ACHIEVEMENTS

- **GATE 2026 (Data Science & AI):** Secured All India Rank (AIR) ~10,000 nationwide.
- **Finalist – HMEL Energy Quest 2026:** Advanced to the national final round.
- **Internal SIH 2026 Finalist:** Ranked among the Top 50 teams campus-wide.
